

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

P R E F A C E.

THE following Catalogue exhibits a very curious and uncommon Collection of printed Books and Tracts:— of British History and Antiquities, and the rare old English Literature, the most copious of any which has appeared for several Years past — formed with great Taste and a thorough Knowledge of Authors and Characters, by that judicious Critic and able Antiquary, the late JAMES WEST, Esq; President of the Royal Society.

Several anonymous Writers are herein brought to light — many Works enlarged and further explained by their respective Authors and Editors — and a far greater Number illustrated with the Manuscript Notes and Observations of some of our most respectable Antiquaries; among whom will be found the revered Names of Camden, Selden, Spelman, Somner, Dugdale, Gibson, Tanner, Nicolson, Gale, Le Neve, Hearne, Anstis, Lewis, St. Amand, Ames, Browne Willis, Stukeley, Mr. West, &c. &c. — But, above all, the intense Application, and unwearied Diligence of the admirable Bishop White Kennett, upon the Ecclesiastical, Monastical, Constitutional and Topographical History of Great Britain, so apparent throughout this Collection, furnish Matter even to Astonishment; and were alone sufficient to establish the Reputation, and to perpetuate the Memory of that illustrious Prelate, without any other Monuments of his Greatness.

In an Age of general Inquiry, like the present — when Studies less interesting give Place to the most laudable Curiosity and Thirst after investigating every Particular relative to the History and Literature of our own Country; nothing

P R E F A C E.

less than an elaborate Digest of this valuable Library could be expected; and, as a Supplement to the History of English Books, more desired.

That Task the Editor has cheerfully undertaken; and, he flatters himself, executed as well as the short Time allowed would permit: — He further hopes, to the Satisfaction of such who are capable of judging of its Utility and Importance.

The Lovers of engraved English Portraits — a Species of modern Connoisseurship (which appears to have been first started by the late noble Earl of Oxford; afterwards taken up by Mr. West, Mr. Nickolls, Editor of O. Cromwell's State-Papers, Mr. Ames, &c. and since perfected by the Muse of Strawberry-Hill, the Reverend Mr. Grainger, of Shiplake, and some few more ingenious Collectors) may here look to find a considerable Number of singular and scarce Heads, and will not be disappointed in their Search.

It remains only to point out the Order of the Catalogue, which is divided into twenty-four Days, for the more readily finding out the several Subjects and Sizes.

This exceeding rare Book (commonly called Rastell's Chronicle) was the Gift of the truly honourable Edw. E. of Oxford and E. Mortimer to Mr. West, 1729.

Mr. West's Note and References are too interesting to be passed over— "This, says he, is the only perfect Copy of this very rare and curious Book, known in the World.—Nicolson in his Historical Library, says, he knew not where to find this Book.

" See the strange Account of the Murder of Edw. 5. and his Brother—This Book was printed only 46 Years after their supposed Death, when there must have been many living who remembered them—And the more so, as John Rastell, the Printer and Publisher, was a Man of Learning, and of the Law, and intimate with Sir Thomas More, whose sister he married.

" See the comparative Value of Money at the Death of Rich. 2. and the 21 Hen. 8.

" Qu. Who has seen the Cosmographical Chart called *Mappe Mundi*, mentioned in the Prologue, where the Story of Brute is very satisfactorily confuted?

" See a curious Account of Stonehenge, c. 11.—Also of K. Arthur's Seal, on Edw. the Confessor's Monument in Westminster Abbey, discussed; c. 111.
